

PX SERIES OPEN FRAME TRANSFORMERS

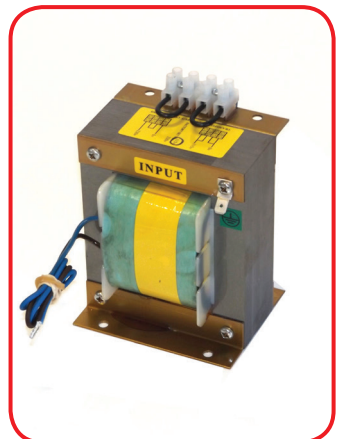

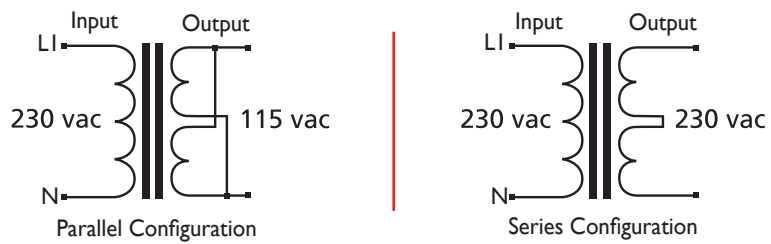

- Isolating & Safety isolating incorporated power transformers manufactured in NZ by TSL to ASNZS 61558 (ASNZS3108).
- Open frame construction with 250mm flying leads primary (input), terminals secondary (output), short circuit / overload protection NOT fitted (non short circuit proof).
- Dual secondary (output) windings, these may be linked in series configuration or parallel configuration.
- Industrial controls, power electronics etc. Operating frequency 50..60Hz.
